

2011 National OPSEC Conference

We are just one month out from the National OPSEC Conference! We hope you are as excited as we are to be traveling to the Atlanta Marquis Marriott Hotel for this event.

So far, over 800 people have registered for the conference. **Don't forget to make your hotel reservations!** You can do this from the www.iad.gov/events website. If you find that you are not able to attend the conference this year, please go to the events website and cancel your registration asap in order to allow others to attend. Keep in mind that if you cancel less than five working days prior to the event, there usually isn't enough time for someone on the waitlist to get travel authorization - your seat at the conference will go unfilled and the food that was ordered for you will go to waste.

We are once again offering a Virtual Worlds Laboratory. If you would like to participate in these sessions, please bring your own laptop and Dr. Young will work with you on creating a digital persona and show you the dangers lurking in the virtual world. We will have table space and electricity for 20 laptops but there will be plenty of room for others to observe and learn!

If you would like to participate in the Program Managers Tutorial, please contact Teresa Wheeler on 443-479-4728.

We are having a formal OPSEC Exhibition this year. If your organization or company would like to exhibit in the OPSEC Expo, please visit www.opsecexpo.com to reserve your booth space.

Here is the latest agenda. **It is subject to change at any time.**

Monday, 16 May
